

Boy Scouts of America Erie Shores Council

100th Anniversary Environmental Stewardship Project List

As you are aware, 2010 marks the 100th anniversary of the founding of the Boy Scouts of America. The Boy Scouts have always been an outdoor program with an emphasis on understanding and preserving our outdoor heritage. As part of the celebration of this our 100th anniversary, each scouting unit shall undertake to execute an activity designed to permanently improve the environment within our council or adjacent neighboring areas.

These projects may include planting or improving wildlife habitat, development or major improvements to hiking or bike trails, constructing rain gardens, reforesting areas, and projects designed to bring enjoyment of the natural world to day care centers and facilities for senior citizens or the disabled. Improvements can be in parks, church yards, cemeteries, nursing homes, wildlife or any other similar areas. These projects should have a lasting effect or at least impact the community for more than one year.

Each of the following potential beneficiaries were contacted. A list of potential projects from those that responded is on the reverse of this form. You may select a project from this list or come up with your own Environmental Stewardship project in your community. Please notify your Unit Commissioner of the project selected.
